Michael Malouf, left ,and Dina Feldman are wearing Raggedy Anne and Raggedy Andy costumes made by Mrs. John Malouf, right. The school's annual carnival will be held from 5:30 p.m. until 9. Amidon Not Wanted At La Presa Say 134

Mrs. Richard Deal of Lime Tree Ln., Spring Valley, at Monday night's meeting of the board of trustees of the La Mesa-Spring Valley School District, presented petitions, signed by 134 residents, asking that the Amidon system of teaching, now at Kempton School, not be allowed in the La Presa School.

Similar petitions were presented for the Northmont School. These were presented by Ralph Leigh of La Mesa. Both persons were questioned by the board, to determine the legality of the petitions.

The matter of consideration of resolution on assessment of unimproved land within the boundaries of the La Mesa-Spring Valley School District, was again brought up by board member Victor Walton.

He contends that unimproved property is assessed out of proprotion to improved property and that the School District is losing thousands of dollars each year because of it. He pleaded wih the board to consider his ideas. Board member, Fred Jabusch, moved to table the plea indefinitely.

It was finally voted on and the result was a tie, as president Dr. Padfield refused to vote. There will be no more discussion of the subject, Padfield said.

In other business, the board voted to ask County Counsel whether or not school administrators should be allowed to give their opinions about educational programs. It is expected County Counsel, in the near future, will make a decision and present it in writing to the board of education.

However, Dr. Ted Dixon, associate superintendent, said he is of the belief that professional educators have a right to speak their own minds, but should have an expression from the board. Board member, Fred Jabusch, said the District has hired professional people to do a professional job. He said he did not feel the educators would act in any unprofessional way and that they should be able "to say what they feel."

Lauren David Hollenbeck, 31, a truck driver of 1598 Drexel Dr., Lemon Grove, was arrested Friday charged with theft of more than $1,500 worth of property from San Diego and El Cajon business firms.

Two floor buffers from a janitor supply firm were found in a truck Hollenbeck was driving when arrested at Euclid and Olvera Avenues.

Detectives reported that a blow torch stolen from an El Cajon construction site was used to cut open the safe in the janitor supply house last week.

The safe had no money in it and was found later off the 3300 block on 3rd. Ave. Sunday.

Recovered were three typewriters, a dictating machine and a floor buffer. A truck used to haul the equipment away was found abandoned later in the 1600 block on 3rd. Ave.

State Mental Facility Important To SD County

It is important that San Diego County receives the multi-million dollar state mental facility, according to Mrs. Eleanor Anderson, the mayor of Chula Vista.

Mrs. Anderson, speaking at the Lemon Grove Men's Club meeting Friday, said the facility would help the county in many ways, including economically.

"These persons on the payroll would be dedicated individuals and would be great assets to any community," Mrs. Anderson stated.

She also said the county needs a facility of this type as the present situation calls for sending committed persons to institutions over 500 miles away. "This hampers re-habilitation of the incarcerated persons," Mrs. Anderson said.

She toured the state mental hospital at Vaccaville recently and was impressed with the re-habilitation procedures.

"The payroll at Vaccaville is close to 5 million dollars. The projected payroll at San Diego County would exceed that sum," she related.

Mrs. Anderson proposed an Otay Mesa site to the Men's Club, pointing out that it would bring benefits to Lemon Grove, La Mesa and Spring Valley besides the immediate area. "All communities within 10 miles would be within the range of which the facility employees would be settling," she said.

Mrs. Anderson said the most important part of obtaining such a facility was community acceptance.

Gene Fuson, editorial research writer at KOGO-TV, will be the guest speaker at this Friday's noon luncheon. The weekly meetings are held at Michael's Resaurant.

The Hallowe'en That Was

We suspect that it would be easier to smuggle gold out of Ft. Knox on Halloween (even if there were some left) than it would be to smuggle a cow into a local schoolroom; or to dismantle a wagon and reassemble it atop a local public building.

We used to do it a generation ago. The capers were senseless but they did not seem so to us at the time.

It was then an outlet for stored up energies that if unleashed today, would lead youngsters down the path to the juvenile hall.

Locally, schools take the steam out of the little goblins and witches by giving full play to their antics at the school grounds on Halloween. These events are programmed to get the youngsters off the streets and to keep them out of trouble. And it's a splendid job they do, too.

Yet, we can't help but feel a little sorry that many youngsters will grow to be adults and parents without having experienced the sweet smell of danger in their nostrils on a late October evening as they assembled in deep secrecy to jointly undertake a project that will leave the populace nonplussed the next morning when they find an outhouse high on a barn.

Halloween has not lost its meaning but the essence of hazard has long since passed—perhaps forever. And perhap just as well.

Vapors Are Deadly

The FBI Law Enforcement Bulletin dated October 1965 published a frightening article. Titled "A Sniff of Death" it tells of glue sniffing, in all its horrifying results in plain, easy to read (and hard to believe) language.

The FBI Bulletin is published under the direction of J. Edgar Hoover but the article was written by Dr. Jacon Sokol, chief physician of the Los Angeles County Probation Department.

Much of the following material is lifted word-for-word from the Bulletin article.

Dr. Sokol reports that it's a new and deadly adolescent craze sniffing glue for kicks that is raiding the country. Hundreds of young people between the ages of 8 and 18 are secretly inhaling the fumes released by the solvents found in plastic elements **Adults are often involved, too.**

In December, a 27-year old Santa Monica woman was arrested for buying beer for a handful of juveniles and of joining them in sniffing glue.

Another young lady was arrested recently for organizing glue-sniffing parties for teen-agers.

The toxic substance most commonly found in plastic cements is toluene, which acts as a depressant on the central nervous system. During the euphoric stage of intoxication, the glue sniffer loses his normal controls and resorts to cruel and violent behavior. During this stage he is dangerous to himself and society.

Here are some typical examples that came before juvenile officials last year.

In January a youth was incarcerated who climbed on roofs while under the influence of glue.

During the euphoric stage, two young boys fell to their deaths from tenement roofs.

A Public Health nurse, who turned in three school girls under the influence of glue, said they were dancing and giggling irrationally.

A 17-year old San Jose boy was dragged home unconscious after attending a glue-sniffing party on a baseball diamond behind a school. He admitted to being a glue habitue.

Near Oakland, a boy in his early teens was so elated by glue vapors that he assumed a fighting stance before an oncoming freight train—narrowly escaping death.

A 15-year-old Los Angeles boy was arrested for attempting to steal a car. He admitted to having sniffed six tubes of glue. His mother stated that the previous night he had to be carried into the house due to glue.

A 16-year-old boy assaulted his nine-year-old brother and held matches over the mouth of his 2-month-old brother. He

CORE Asks End To S.D. School Discrimination

A full-scale drive against de facto segregation in San Diego schools was voted last week at a meeting of Congress of Racial Equality (CORE).

A demand that three CORE members be appointed to the newly-formed Citizens Committee on Equal Educational Opportunity was made of the board of trustees of the S. D. Unified School District.

The Rev. George Walker Smith, school board president, was asked to explain why no CORE member had been appointed to the 35 member committee and why the membership on a committee studying de facto segregation had a 5:1 ratio of Whites to Negroes. Mr. Smith is a Negro.

CORE asked that three of its members be appointed to the equal opportunity group—Kenneth Pennington, engineer; Harold K. Brown, educator, and Dr. Charles Collins, professor at Grossmont Junior College.

McQuilken Ruled Suicide

County Coroner Robert Creason ruled Wednesday that the death of County Assessor John McQuilken last week was suicide.

At a press conference he revealed that McQuilken died of "self-ingested overdose of sleeping pills."

Death earlier was thought to be of natural causes.

Investigation of McQuilken's office is continuing. Six persons appeared before the Grand Jury but three invoked the Fifth Amendment. District Attorney Don Keller asked Presiding Judge George Lazar to grant the three immunity and order them to answer the Grand Jury's questions. Judge Lazar will rule on the request Nov. 5.

Dr. Bruce Chassey Gets PhD at Cornell

Now its Dr. Bruce Chassey—and he's 22 years old.

He and his wife will return home for a short vacation with his parents before becoming affiliated with the Albert Einstein Institute of Research in Philadelphia. His assignment there is on a post-doctorate fellowship.

Dr. Gilbert Chassey maintains a medical office at the Lemon Grove address.

The four Spring Valley youths will be performing with the San Diego Civic Ballet when that group travels to Mexicali, Mex., Oct. 31, to play a part in the hommage festivities honoring out-going Baja California governor Dr. Gustavo Aubanel Vallejo. The group will present "The Magic Flute and the Twelve Dancing Princesses" under the direction of Miss Maria Fielding, supervisor of cultural activities for the San Diego City Recreation Department.

11th Annual Goodwill Drive Scheduled For November 6

Turn for Goodwill Drive will be held on Saturday, Nov. 6, county-wide, under the sponsorship of the San Diego County Council of Rotary Clubs, it was announced by Dr. Rex Gorton,

The Eleventh Annual Good chairman. Z i g Nevedomsky, business representative, Teamsters Local 542, is vice chairman of the drive, which last year brought in approximately 280,000 pounds of discarded repairable clothing, household articles and other goods to . . . "help employ the handicapped at Goodwill Industries of San Diego County."

Thousands of Boy Scouts and Cub Scouts, doing their good turn, will distribute 150,000 Goodwill bags to homes in the county on Oct. 30, 1965, Gorton said.

Then on Saturday, Nov. 6, the scouts will return and pick up the bags, filled, it is hoped, with discarded goods, which will then be trucked by 35 trucks, furnished by the San Diego Chapter of the California Trucking Association, and driven by volunteer members of the Local Teamsters Union 542 to a special warehouse in San Diego.

At the warehouse, the unloading of the trucks will be done by 35 marines from the Marine Corps Recruit Depot and 35 students at the Navy Radioman "A" School of the Naval Training Center. Rotarians in various areas will also check on bag pick up points and arrange to have "missed bags' transported to the warehouse.

These materials, thus collected, will be used to furnish work for the 200 handicapped workers of Goodwill Industries who will repair these items for sale at marginal prices at various Goodwill stores located throughout San Diego County.

Thermometer Breaks Here

The heat wave broke the thermometer this week at the weather station at the Lemon Grove Fire House.

It wasn't actually hot enough to explode the thermometer but because it was hot the thermometer was broken.

Capt. Mark Foote, whose job it is to spin the thermometer down from its high reading each day, had to give a little more twist to the spinning mechanism; a clamp gave way and the thermometer flew out of the contrivance and splattered.

High readings for the past 7 days:

L.G. Teachers To Have Voice In Curriculum

The Lemon Grove School District board of trustees Monday night took the first steps to implement the Winton Act (AB 1474)—a "meet and confer"—type of legislation.

Tom Brogan, president of the LG Teachers Association; Peg Lemmer, and Bob Sutton represented the teachers and offers a set of rules and regulation to the board.

The board adopted on section of the proposal and the teachers' group will elect a five-member negotiating council. More of the proposals will be studied by the board at the next meeting.

The Winton Act is designed to encourage meetings between teacher's groups and trustees on matters other than salaries. For the first time teachers will be asked to "meet and confer" on matters of curriculum.

At Monday's meeting the scheduled audit study was deferred because trustee Lyle Stumbaugh, a certified public accountant was absent.

Many of the patients contributing to the exhibit are in wheel chairs, work with one hand, or are otherwise handicapped, but Mrs. Robinson has found many way for them to express their creativity.

Turn Back The Clock Sunday A.M.

Here comes that hour back! It's the hour you lost last Spring when Daylight Savings Time started.

California returns to Standard Time Sunday at 2 a.m. To be in synchronization with the rest of the state Sunday morning, residents should turn their clocks back one hour as they go to bed. They'll wake up on Standard Time.

An old guide to clock setting with changes incurred by Daylight Time is: Leap forward in Spring; Fall back in Fall.

Love is patient and kind; love is not jealous or boastful; it is not arrogant or rude. Love does not insist on its own way; it is not irritable or resentful; it does not rejoice at wrong but rejoices in the right. Love bears all things, believes all things, hopes all things, endures all things.

Love never ends; as for prophecy, it will pass away; as for tongues, they will cease; as for knowledge, it will pass away. For our knowledge is imperfect and our prophecy is imperfect; but when the perfect comes, the imperfect will pass away.

Mount Miguel Drama Dept. To Present 'Antigone'

Classical times meet the twentieth century Nov. 23-24 as the Mount Miguel High School drama department, under the direction of Keith Richard, re-enacts Jean Anioulh's modern version of "Antigone."

Starring in the major roles are Donna Duschel as Antigone, Wallace C. Johnson as Haemon, Brenda Mosier as Ismene, and Brian Howarth as Crean.

Briefly, the play is about the rule of Thebes and a moral conflict. Oedipus' two sons have inherited the throne and are to rule Thebes in alternate years. When the eldest son, Ectocles, refuses to relinquish the crown, there is civil war. The brothers meet in battle and kill one another. The new king, Crean, issues an edict warning "any man who attempts to bury Polynices (against whom Crean fought) will be put to death." Antigone, the sister of the dead brothers, swears to bury Polynices as a matter of not only family honor but as a matter of moral conviction as well.

Anioulh's version of "Antigone" is the modern stage variety featuring modernized dialogue and costumes. Drama coach Richard said, "This particular script is one that will make the student actor stretch, and it's entertaining as well as being a serious drama."

Social Welfare Announces Appointments

Two executive appointments in the State Department of Social Welfare have been announced by State Director Jack Wedemeyer, both involving new program development.

Percy More has been named acting chief of the Medical Care Division, succeeding William D Bechill, who recently received a presidential appointment as Commissioner of the newly established Administration for the Aged in the U. S. Department of Health, Education and Welfare in Washington, D. C.

Moore, 41, who has been Wedemeyer's staff assistant since mid-1964, will act as the medical division chief through the current session of the State Legislature and into the initial phases of the state medicare implementation program if an extended medical care bill (AB 5-Casey) is passed.

The director also announced the appointment of Raymond B Auker as planning consultant in the Division of Planning and Methods, a newly created position. Auker, former director of the Fresno Community Council for six years, will be directly responsible to chief of planning and methods, Lewis Watts, in the development of eight service centers throughout the State patterned after the one set up in the Watts Area of Los Angeles County. The locations of the new centers have not yet been selected.

Auker, 34, came to Fresno in 1959 from Schenectady, N. Y., where he had been assistant director of the Community Welfare Council and Community Chest. He is a graduate of Heidelberg College in Ohio and holds a master's degree in social administration from Ohio State University.

Moore, before joining the Department as staff assistant for legislative liaison, was for 10 years administator of the International Longshoremen's Union Welfare Fund in San Francisco. He received his degree in political science at University of California in Berkeley in 1950, and was for several years an employment security officer with the State Department of Employment.

GOLDEN ANNIVERSARY — Mr. and Mrs. Leonard D. Grove of 7138 Mt. Vernon Ave., Lemon Grove, will be celebrating their 50th wedding anniversary this Sunday in a reception at the La Mesa Women's Club. The picture to the left shows the couple when they were married in Missouri. He was 19 at the time and she was one year younger. The photo to the right was taken recently, 50 years later.

Groves To Celebrate Golden Anniversary

This Saturday will be the Golden Anniversary for Mr. and Mrs. Leonard D. (Pappy) Grove of 7138 Mt. Vernon Ave., Lemon Grove.

And it has been the Golden Rule that has kept them together for the 50 years of their marriage, according to them.

"Do unto others as you would have them do unto you" has fit perfectly into the Grove's lives and has molded them together, both agree.

"You have to learn to give and take," says Mrs. Grove, the former Cleo Miles.

Mr. Grove believes "it takes two to make a home. If one of us has a nickel, both of us have a nickel. We go by the Golden Rule."

The Grove's anniversary will be celebrated Sunday from 2 p.m. until 4 p.m. at the La Mesa Women's Club.

The couple was married Oct. 30, 1915, near Eudora, Mo., where Mrs. Grove was raised.

Mr. Grove also was born in Missouri but left for a while to work in Oklahoma as a teenager before returning to marry the now Mrs. Grove.

The couple first met in 1912.

"She was sitting in a buggy outside school when I came out. I don't know how I ever got out there as I was so behaved and timid," Mr. Grove said with a twinkle in his eye.

"Don't believe him. He wasn't a bit bashful," says Mrs. Grove.

Walked Home

He walked her home that day along with some other friends. The next step was at church.

Mr. Grove's father was a baptist minister and rode the circuit part of the time, visiting churches in the backwoods.

They met again the following night at church and sat together, beginning a long relationship.

Mr. Grove continued courting his soon-to-be wife through 1914 when he left to take a job in Chelsea, Okla., "Will Rogers country," as he calls it. He has many fond memories of the famous humorist.

They continued writing each other and in the late fall, Mr. Grove went back to Eudora and married Cleo.

Their travels since have taken them through the western United States, including stops at Kansas and Arizona.

Moved Again

They moved to Kansas shortly after their marriage and resided there until 1929 when they packed up and moved to Arizona, where the field was ripe for carpenters (Mr. Grve is a builder by trade.)

The Groves left Arizona in 1941, moving to San Diego County, where they have lived ever since.

They've resided in Lemon Grove since 1942 and "are not looking for any other place."

Mrs. Grove states, "I don't know why we didn't come to Lemon Grove sooner."

One thing that sticks out in Mr. Grove's mind about changes in the last 20 years has been the number of school kids.

"Why when I came here, there weren't over 400 students in the entire Lemon Grove School District. Now there are probably 10 times that," relates Mr. Grove.

Local Grads

Three of the Grove's eight children have graduated from Grossmont High School. Their ages range from 26 to 47.

Seven of them will be at the reception Sunday. One daughter in Ohio was unable to make the trip but will be coming out next summer. The Groves also have 22 grandchildren and four great grandchildren.

Mr. Grove, who was 69 this past June 29, and Mrs. Grove, who was 68 Sept. 13, have several pieces of advice for newlyweds.

"First of all, don't forget there's a God. And second, live by the Golden Rule," say the couple.

It seems to have worked out pretty well for them.

Feb. 25—"Essence of Life"—A study of water and those unique properties making it the only substance to serve as the basis for life; March 25— "Stepping Stones to Australia"—Wild animals and vivid scenery of three mid-Pacific islands: Oahu in the Hawaiian Islands, Canton on the equator and Viti Levu in the Fijis.

The DIMMER VIEW

(Continued)

had been sniffing glue.

In Imperial Beach, a 16-year-old boy tried to beat his parents and younger brother to death with a steel tool. He was a glue sniffer.

In Roanoke, a 14-year-old boy and his 13-year-old chum sniffed glue vapors from a bag. Said the younger lad, "(the older boy) kinda' went crazy, and acted like he was a bird." The younger lad left. When he returned an hour later, he found his teen-age friend dead. He had become unhinged from the intoxicating effects of the glue sniffing.

Glue sniffing causes liver, kidney, and lung damage and abnormalities in the blood.

Glue sniffing children, both boys and girls, frequently meet in unoccupied houses and sniff glue together and later have sexual relations—both homesexual and heterosexual, according to the FBI report.

The Bulletin reports that addiction frequently accompanies sniffing. Several cases are listed. Many cases of death are listed, too. This often occurs when sniffing and drinking are combined. In one case a sniffer drank one can of beer and was dead on arrival at a hospital.

Under influence of glue, juveniles will experience some of the following rections, the Bulletin said.

Buzzing sensations, dizziness, headaches, and euphoria.

Loss of weight, double vision, jumping eyeballs and forgetfulness.

Dullness, poor concentration, tremors and dialated pupils.

Muscle twitching, numbness, sneezing, coughing and chest pains.

Loss of weight is common. One sniffer lost 30 pounds.

Glue-sniffing, which many people consider a childish prank, is deadly.

Sheriff's deputies say that the fad is growing in the Lemon Grove-Spring Valley area.

Bomb Scare At Monte Vista High; Fires Keep SV Fire Dept. Busy

A bomb scare, a couple of car fires and a host of grass fire kept Spring Valley firemen on their toes this past week.

A telephone call was received at Monte Vista High School on Oct. 20 with a voice possibly of a young male, stating simply, "There is a bomb in your school." He then hung up.

Principal Stanley McClintic said it is the policy of high schools that unless the school has some concrete information to go on, no search will be made to find the "bomb," or to evacuate the building. In this case the Sheriff's office was notified, which, in turn, notified the Spring Valley Fire Department.

There was another bomb scare at Monte Vista about four years ago. At that time the school was evacuated and a search made for the bomb. No bomb was found, but a day or two later, a few dynamite sticks and percussion caps were found in a locker.

Two avocado trees were burned at 3605 Kenwood Dr., on Oct. 19, when a 20 by 20 area of dry grass burned. Owner of the property is Ray Rammell of Los Angeles.

There were two vehicles fires during the week. The first was on Oct. 21. A car belonging to Sheryl Johnson of 911 Bollenbacher, San Diego, caught fire at Jamacha Rd. and Elkelton Blvd. Loss was estimated at $150, caused by a leaky fuel pump, the gasoline igniting and burning wiring, fan belt and other items.

The second vehicle fire was on Oct. 22. A pickup truck, belonging to Joe Payson of La Mesa, burned near 10040 Mozzle Ln. Estimated loss was $500, and caused by a backfire in the carburetor.

Approximately $50 damage was caused to the home of Pedro Grepo, 854 La Prea Ave., on Oct. 21. However the blaze was out when firemen arrived. Cause of the fire is under investigation.

Burning of an area of dry grass near 9248 Jamacha Rd., on Oct. 21, gave cause for concern, as the burning was during the time of high winds. No damage was reported.

Six dry grass fires, within two days, are being investigated, and were in the same area. Two were on Oct. 22: 1000 block Leland, and 8852 Jamacha Blvd. Oct. 23: Imdale and Worthington; 400 block, Sweetwater Rd.; End of Parkbrook; end of Ensdale. No damage reported in each case.

Children And Matches Cause Fire Problems

Children playing with matches continues to be the major reason for fires in the Spring Valley Local Fire District, Stan Mourning, Fire Marshal, pointed recently. Out of 138 fires in 1964, 48 were started by children playing with matches. Most were dry grass fires but a few were structures, resulting in hundreds of dollars in damage. The amount of fires set by children amounted to 35 per cent of all fires during the year and was twice as much as any other single cause, Mourning said.

Fires have been set by children of all ages; several have been two and three-years of age. Most of the fires are set by children of elementary school-age, while a few occur among the older set.

How does the Fire Department cope with such a problem?

In the first place, many of the children are not apprehended. Some have been observed fleeing from the scene of the fire. A few are caught and a method of light punishment administered.

The young children, when apprehended, are taken home to their parents. The parents are talked to and some disciplinary action is recommended. Some parents seem surprised and find it difficult to believe their child could do such an act.

Older children, when apprehended, are taken to their parents, and often, with the consent of the parents, are given some work to do at Fire Station No. 3; like sweeping a large area at the rear of the station; cutting the lawn, washing windows, etc. This is done on weekends, sometimes for four weeks.

All parents are responsible for the action of their children, Fire Chief Berger pointed out. He said damaged parties may recover damages.

In three years there have only been three repeaters, Marshal Mourning said. This is a good indication that they are "experimenting."

During "Fire Prevention Week," Oct. 3-9, the S. V. Fire Department had speakers and demonstraters at various elementary schools to impress the danger of fire upon the minds of the youngsters.

Chief Berger said it stands to reason that the increased population in Spring Valley means more children, which in turn means more fires. But, he added, the department hopes this will not hold true.

What are the children's excuses for starting the fires? Chief Berger said there are as many excuses as there are children. The basic reasons are curiosity and inquisitive minds to see what the fire will do.

Monte Vista Seeks Initial League Win

Fifth-place Santana High, the Grossmont League's newest entry, will provide the opposition for Mount Miguel's rebounding Matadors Friday at 8 p.m. at Gillespie Field.

Monte Vista, winless in loop action, will be meeting second-place Helix on the Miguel Field, also at 8 p.m. Friday.

The Matadors ripped El Capitan, 42-12, last weekend after Helix had whipped Perry Miller's crew, 26-7, the Friday before.

Daine Demaree, Matador speedster, gained over 240 yards in the El Cap contest while scoring on a 73-yard run.

Others scoring for Miguel were Jim Bauer, Frank Gilbert, Wally Johnson, Fred Knight and Tom Van Zant.

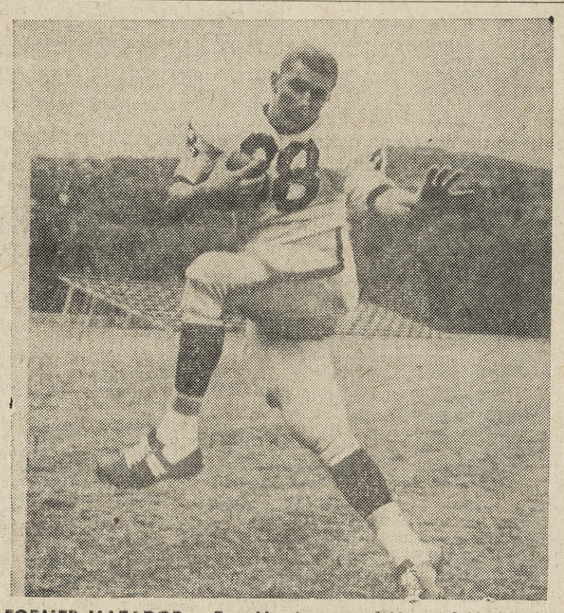
Santana lost to Grossmont, 13-0, in its last encounter. The Sultans are 1-2 in league play.

Monte Vista, coached by Max McCartney, was blanked by Granite Hills, 20-0, last Friday.

Helix dropped one to El Cajon, 7-0, to fall from the undefeated ranks in league last Friday.

The Highlanders have the second top defensive mark in the Grossmont League. Miguel tops all offensive squads with 81 points in four games.

Other loop contests will have El Cajon against El Capitan at Valley Stadium and Granite Hills meeting Grossmont at Helix.



FORMER MATADOR — Ben Martin, son of Mr. and Mrs. B. D. Martin of 8810 Orville St., Spring Valley, Calif., is playing halfback on Norwich University's football team this fall. Now a sophomore at the military college, he is a 1964 graduate of Mt. Miguel High School.

Fresno State To Play Host To San Diego State College Aztecs

The San Diego State Aztecs resume California Collegiate action this week with an important league struggle at Fresno against the Fresno State Bulldogs Saturday starting at 8 p.m.

The play-by-play will be brought to San Diego fans direct from Ratcliffe Stadium over KOGO-Radio (600 on the dial) with sportscaster Al Couppee at mikeside.

The Aztecs rebounded from two successive losses Saturday to recapture their fourth win of the campaign against Cal Poly of Pomona, 41-13, in the annual Homecoming Game played before 8,500 fans at Aztec Bowl.

The afternoon contest, played in 90-degree heat, saw the Aztecs take a 34-7 halftime lead, then substitute freely in the second half.

All-American end Gary Garrison, limited to only first half action, caught 12 passes for 155 yards and two touchdowns and scored once more on a 75 yard kickoff return to pace the Aztec win. Garrison now has 43 receptions for 558 yards and seven touchdowns passes caught. He also leads the team in scoring with 54 points.

Quarterback Don Horn, who alternated with Steve Taylor at the signal calling spot, completed 12 of 14 passes for 167 yards and three touchdowns. Horn, current leader in the CCAA with 86 completions of 141 attempts for 1,162 yards and 13 touchdowns, played little more than a half.

Taylor completed four of six passes for 33 yards before giving way to Pat Pagett in the final period.

The Aztecs ground out 241 yards rushing and 200 yards in the air while holding Cal Poly to 29 net yards on the ground and 135 passing yards.

Defensive standouts for the Aztecs were Ken Madison, Cliff Kinney, Jeff Staggs, Bob Jones, Bob Howard and Pagett.

Garrison was named Offensive Star of the Week while Kinney was voted Defensive Star of the Week. Both had received star honors in prior weeks.

The only man missing from last season's championship team is Bob Johnson.

Grossmont ran their PSC record to 2 and 0 last week as they defeated the Palomar College Comets, 16-47, at the Palomar course. Bob Lamorandier won the race with a winning time of 19 minutes and 53 seconds. Following "Lam" in order were Russell, Wilkinson, McConnell, Caster, Sawyer. McKenna, Jim Williams, and Don Simons. Grossmont JC Meets COD In Last Home Encounter

The Grossmont College Griffins bid farewell to Valley Stadium for 1965 this Saturday when they meet College of the Desert in their last home game of this season, beginning at 2 p.m.

The afternoon game with the Roadrunners will mark an attempt by the Griffs to get above the .500 mark again in the Pacific Southwest Conference standings after last week's 41-6 loss to the San Diego Mesa College Olympians. The Griffs are now 2 and 2 in the PSC and possess a 2 and 4 mark over-all.

The Griffins will open with Wash Walker at quarterback, Rick Blanchard and Don Hamlin at the halves, and Tom Hunt at fullback. Dave Nuttall will open at his usual position, split end.

Nuttall continued on his one-man assault of the record books Saturday as he caught 5 passes, he now has 23 on the year and 64 in his two-year careeer. He also intercepted a pass, his eleventh of the season.

One of the few things Dave couldn't do was score and that was the story of the game in a nutshell.

The Griffins only touchdown came on a 52-yard return of an intercepted pass from Mesa's George Romero by Jim Coddington, as the Olympians tough defense limited Grossmont to only 184 total yards.

On three occasions the Griffins gave the Olympians possession of the ball deep in Grossmont territory on two fumbles and an interception. The Olympians cashed in on every break as they rolled up six touchdowns, four by Charlie Brown, and five extra points.

AWARD — Helix Irrigation District's award of appreciation is given to District Cartographer Jim Otradovec for 19 years of service. Otradovec, who developed and maintains the District's field map service, will retire at year's end. The award is not connected with that, according to a District spokesman. Shown making the presentation to Otradovec is Board President Harry Griffen. Mrs. Otradovec attended the ceremony.

STATE TO BORROW FUNDS

The State's General Fund will borrow $55 million this month to help tide it over the usual low revenue period, State Controller Alan Cranston reported today.

He said the General Fund had a cash balance of $27,384,405 at the end of September, but expenditures this month and next make it necessary to borrow from the Architecture Revolving Fund.

FHA Representative To Speak Tonight

The Mountain Empire Farm Bureau center will hold a pot-luck supper tonight at 7 at the Stone House, Campo.

Paul Conn of Farmer's Home Administration will give a talk on FHA loans along with a film.

Chicory is made from roots of the chicory plant.

8,000 Acres May Be Sewered

SAN DIEGO (CNA) — Plans for a sewer system to serve 8,000 acres south of El Cajon and East of Spring Valley are being studied by the Board of Supervisors.

The area includes Calavo Gardens, Monte Vista Ranch, Ivanhoe Ranch, Jamacha and Steele Canyon and was referred to generally as Jamacha Valley. It is estimated that some 4,000 persons reside in the section and the population projection is that there will be 40,000 inhabitants by the year 2,000.

One plan would cost $1,542,000 and tie into the Spring Valley Irrigation District line for eventual disposal at Point Loma.

Another is to build a water reclamation facility at an initial cost of $415,000. It is believed that the water could be used by Cottonwood Golf Course if the plant were built in the Sweetwater River near the course.

Building a system of trunk sewers would cost an additional $685,000. The major streets such as Jamacha Blvd. and Avocado Blvd. and Highway 94 would be the backbone of the system for the trunk sewers.

Saving Electricity

Our backwoods correspondent reports a cabin owner installed electricity and when the meter reader came around several months later he found very little juice had been used. He asked the owner if he didn't use the light and was told he did. "How long?" the meter man inquired. "Long enough to see to light the old oil lamp," the man explained.

Three Local Residents In Symphonic Chorale

The San Diego Symphonic Chorale will sing an a cappella program of varied sacred and secular compositions Sunday, Nov. 14, at Crawford High School in San Diego. The program, including works by Vittoria, Pachelbel, Bruckner and others, will be repeated at Sherwood Hall Friday, Nov. 19. Concert time at both places is 8:30.

The Chorale, formed over four years ago, is San Diego's only community chorus of mixed voices. It has an impressive record of both well known and comparatively seldom heard works performed, all having their meaningful place in choral literature.

Three local residents are members of the chorale. They are Elizabeth Taylor of Lemon Grove and Spring Valley's Lou and Jan Robinson.

Tickets for the coming November concerts are available through Finder's Music Store, the Nexus Book Store in La Jolla, and by calling Mrs. R. C. Taylor at 582-8169. They are priced at $2 for adults and $1 for students. All seats are unreserved.

Planners Reject Request For Commercial Zone

SAN DIEGO (CNA) — The County Planning Commission has agreed to rezone 6.59 acres from R-1-A (small lot residential) to R-3 (multiple family residential) but refused the request of E. S. Caldwell for commercial zoning for the southwest corner of Jamacha Rd. and Kempton St.

Director Dan Cherrier in rejecting the request said that there is already so much commercial zoning in that section of La Presa that it is being used for apartments instead of business.

Caldwell will have to grant the county enough right of way to provide for 51 feet from centerline of Jamacha Rd. before the commission recommendation will be sent to the Supervisors.

Deadline Nears For Wage Taxes

Monday, Nov. 1, is the deadline for filing California Unemployment Insurance wage reports and contribution returns for the third quarter of 1965, Hagen Christensen, Auditor in Charge for the State Department of Employment in San Diego today reminded employers.

Penalty and interest will be charged if the report is filed after the deadline, Christensen said.

Employers needing assistance in preparing their returns may contact The Audit Office at 1350 Front St., Room 1062, San Diego, or by telephoning 234-4341.

D. Speer Gets Job Of Sign Inspector

SAN DIEGO (CNA) — The County Board of Supervisors wants to find out from Road Commissioner David K. Speer how he intends to enforce a new state law that gives him authority to remove illegal signs from county street rights of way.

The law has taken the power from the board and given it to Speer in much the same manner that the State Division of Highways has the enforcement power for state rights of way.

The board is more concerned with political signs because they are the kind that sprout up and are often left up long beyond elections. The board is also considering an ordinance to require identification of all signs so that removal can be enforced.

Prendergast To Serve Second Term For MOD

Tom Prendergast, a long-time civic leader and charter member of the National Foundation, has accepted a second term as San Diego County campaign chairman of the March of Dimes, it has been announced by foundation chapter chairman John S. Lyons.

Prendergast, who is a florist, said the San Diego County chapter will set its campaign contribution goal at $160,000. The drive will be conducted in January.

Doug, the older, with strong leaning toward science subjects in school, says he became fascinated with the modern San Onofre Nuclear Generating Station soon after construction started. His interest grew as work progressed until, with parental guidance, he acquired shares in the San Diego Gas & Electric Company. Young Randy became greatly interested, too, and soon became a shareholder.

Randy and Doug, along with 25,000 other people in all walks of life, make up the ownership of your San Diego Gas & Electric Company. This is American free enterprise at work... providing power at rates that are among the lowest in the nation.

Yes, your money will be promptly refunded, if you do not make steady progress toward learning Spanish from the first hour of study. William Archer, the author of Speed Speech, feels that anyone who is not beginning to think and speak Spanish with excellent proficiency at the end of ten days of concentrated study, should not be penalized a penny. He knows that the course has worked for tens of thousands of people, and he, along with this newspaper, can confidently make this money-back offer to you today.

William Archer was always a diligent language student, however, when he and his family moved to Mexico City after diligently studying Latin, and eight years of Spanish he found that he could not converse with the natives. This complete inability to communicate properly was the inspiration for the creation of the Speed Speech system. This remarkable course enables you to consolidate thousands of regular and irregular verb endings into 12 "Magic Keys." That's right! The Speed Speech "Magic Keys" let you express thousands of thoughts and ideas in Spanish with only 12 sounds and endings.

Eligible Drivers Urged To Renew Licenses Early

If your driver's license expires in the next six months, a trip now to the Department of Motor Vehicles may add one year to the term of your next license.

According to Tom Bright, director of Motor Vehicles, drivers' licenses renewed before Jan. 1 will be issued for five-year terms. But because of a new law, licenses renewed after the first of the year will be issued for four-year terms.

Five-year licenses have been issued since Sept. 17, 1957. Prior to 1957, the standard term was four years.

"The bonus to drivers with expiring licenses is possible because of a provision allowing the department to renew drivers' licenses up to six months early," Bright said. This means a person whose license expires in March, can come in now and be issued a five-year license expiring in March 1971. However, if he applies in March for a renewal license, he will be issued a four-year license which will expire in 1970.

Bright said his department is encouraging eligible drivers to renew their licenses early to relieve a future double workload of license expirations. He estimates that about one milion drivers are eligible to take advantage of the early renewal provision, and thus receive five-year licenses.

The law changing the term of licenses was enacted by the 1965 legislature. It does not affect the term of licenses for first-time applicants, for persons applying late for renewal, or for persons with poor driving records. Persons in these categories will receive three-year term licenses, regardless of when they apply. Licenses may not be renewed earlier than six-months before their expiration dates.

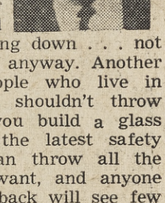
RAMBLIN'

WITH ED LOOP



There have been many changes in the world scene in recent years and several cliches have already fallen by the wayside. Two good examples are, "Everything that goes up must come down," Mariner Four went up and is NOT coming down . . . not on the earth anyway. Another one is, "People who live in glass houses shouldn't throw stones." If you build a glass house with the latest safety glass you can throw all the stones you want, and anyone who throws back will see few results of THEIR throwing. This year you should take advantage of our Christmas LAY-AWAY plan . . . a small deposit on a brief case, attache case, typewriter, adding machine, filing cabinet, etc., will hold your purchase until you pick it up. Don't let the weather fool you, it IS getting close to Christmas. Call Grove Office Supply in Lemon Grove at 7890 Broadway, phone 463-4494 for fair prices and better service when you need office supplies, stationery, office machines or school supplies.
